

Sustainability of Constructions

Integrated Approach to
Life-time Structural Engineering

Proceedings of Seminar

Dresden 6, 7 October 2008

Survey of sustainable approaches in COST C25 member countries; introduction <i>H. Gervásio, L. Simões da Silva, R. Blok</i>	2.42
Survey of sustainable approaches in Greece <i>K.J. Kontoleon, D.K. Bikas, C. Giarma</i>	2.44
Survey of sustainable approaches in the Netherlands; Government policies <i>R. Blok</i>	2.51
Survey of sustainable approaches in Poland <i>M. Broniewicz</i>	2.56
Survey of sustainable approaches in Portugal <i>H. Gervásio, L. Simões da Silva, R. Mateus, L. Bragança</i>	2.61
Survey of sustainable approaches in Romania <i>D. Grecea, V. Ungureanu</i>	2.71
Survey of sustainable approaches in Sweden <i>M. Glaumann, M. Wallhagen</i>	2.78
Survey of sustainable approaches in Turkey <i>I. Kahraman</i>	2.96
 Chapter 3. Eco-efficiency	
Introduction to Eco-efficiency <i>R.P. Borg, M. Veljkovic, Z. Plewako</i>	3.1
Life Cycle Assessment of Concrete <i>R.P. Borg & S. Marinkovic</i>	3.4
Life Cycle Environmental Impact Assessment of Concrete <i>S. Marinkovic, V. Radonjanin, M. Malesev & I. Lukic</i>	3.5
Assessment of a Bridge Structure, Demolition and Recycling of Materials <i>R.P. Borg</i>	3.17
Eco-efficiency of Light Metal Structures in Residential Buildings <i>E. Efthymiou, A. Kozlowski, Z. Plewako, Ch.O. Efstathiades, S.R. Ermolli</i>	3.28
Mechanical Behaviour and Life Cycle Assessment of Fibre-Reinforced Timber Profiles <i>A. Heiduschke, J.M. Cabrero, Ch. Manthey, P. Haller, E. Günther</i>	3.38
Aerogel a New Performant Material to Increase the Energy Efficiency in Buildings <i>V. Stoian, L. Berevoescu, D. Dan, A. Mujde, O. Karaman, V. Buhagiar, A. Baio Dias, Z. Hunyadi</i>	3.47
Life Cycle Cost Analysis and Eco-efficiency in Buildings <i>V. Stoian, L. Berevoescu, D. Dan, A. Mujde, & O. Karaman</i>	3.53
